## Methods of separating mixtures

In the boxes provided, name the method of separating mixtures you would use to solve each of the problems below.

 <p>Waiter, there's glass in my soup.</p>	
 <p>Waiter, water everywhere and not a drop to drink.</p>	
 <p>Waiter, all the sugar's dissolved in the wet bowl.</p>	
 <p>There's mud in the drinking water.</p>	
 <p>Which blue car has bumped into mine?</p>
